

Project title: Clusters for European Innovation Cross-Linking – CLUSTERIX (<http://i4c.eu/chercheProjet.html>)

Program: Programme of Interregional Collaboration INTERREG IVC, funded from European Regional Development Fund (FEDR) (www.interreg4c.eu; www.mdrt.ro)

Project duration: 01.01.2012 – 30.12.2014

INMA budget: EUR 147736

Partners within the project:

1. ECOPLUS – The Business Agency of Lower Austria – Austria – Project coordinator
2. Lund University – Sweden
3. Region of Southern Denmark – Denmark
4. ERAI - Entreprise Rhône-Alpes International – France
5. Economic Development Karlsruhe – Germany
6. West-Transdanubian Regional Development Agency Nonprofit Limited Liability Company Hungary
7. TIS - Techno Innovation South Tyrol SpcA – Italy
8. INMA – National Institute of Research-Development for Machines and Installations designed to Agriculture and Food Industry – Romania
9. Tillväxtverket - Swedish Agency for Economic and Regional Growth – Sweden.

Project's objective: increasing the competitiveness of European regions and their innovating potential, by improving and strategically re-orientating the cluster policy towards an intelligent specialization.

Goal: The project aims to make available to national/regional authorities the tools of identifying, analyzing and exploring the potential of future strategic breakthrough of innovative clusters, based on experience exchange and good practices between the project partners (e.g.: joint recommendations on cluster policy, formulated by the representatives of 8 partner states within the project; individual RIP implementing plans – at each partner state level, good practices manual, etc.).
